Introduction days for winter term 2017/18 October 10th to 12th 2017

Dear soon-to-be master students,

We, the student initiative at the Geography Department, welcome you! For an easy and pleasant start in your master's program, we would like to introduce you to the campus, our department and your program's structure in our introduction days from October 10th to 12th. You'll find the schedule for our introduction days on the next page. Some activities are primarily designed for Bachelor students but are nevertheless very helpful for students new to the department or the German study system as a whole.

In addition, several welcoming events are scheduled following up the introduction days. Events for MSc Global Change Geography students are marked below:

- **On Friday, October 13th an optional warm-up course in statistics recommended for all new MSc students is scheduled at 10.00 am in room 1'201 at the Geography Department.**
- Monday, 16th October is the so called Dies Academicus. There are no lectures but a campus-wide welcoming event for all students at the Erwin-Schrödinger-Zentrum (room 0'115) in Adlershof starting 11.30 am.
- **All first semester MSc students are invited to meet the lecturers of the MSc on Tuesday, October 17th at 9:00 am in room 0'119 at the Erwin-Schrödinger-Zentrum. This meeting replaces the first seminar of Module MSc2 and will directly lead into the first lecture of that module.**

October 20th to 22nd will be our weekend trip for new students. We'll take you out "into the wild" for a weekend, with plenty of time to get to know each other and have fun with all kinds of activities. The entire weekend trip will set you back 40€, including transport, food and lodging. The trip is primarily designed for Bachelor students but will be a fun experience for new master students, too. Please note that the registration as well as most of the trip activities will be in German language. Number of trip participants is limited, so make sure to register soon on www.fachschaftgeographie.de.

For any questions leading up the introduction days or your study program in general, feel free to contact our student guidance at studienberatung.geographie@geo.hu-berlin.de.

We are looking forward to meet you during our introduction days and our weekend trip!

Cheers!

Mo, Joana, Stefan & Stefan, Kaddi, Phillip, Lara, Kristina, Arne, Simon, Anni, Marco, Paul, Marc, Johannes, Xenia, Christian, Saskia, Judith, Maxi, Heiner, Steffi, Torben, Tony, Malte, Favio, Hanna, Levi and many other people
