AUSSCHREIBUNG FÜR STUDENTISCHE HILFSKRÄFTE

Beschäftigungsstelle: Institut für Chemie
AG Fachdidaktik und Lehr-/Lernforschung Chemie

Beginn des Beschäftigungsverhältnisses: 01.10.2019
Beschäftigungszeitraum: ...24.... Monate
Arbeitszeit: ☑ 40 ☐ 60 ☐ 80 ☐ .......... Stunden/Monat
Vergütung: 12,00 € pro Stunde
Kennziffer: T133102419

Beginn und Ende der Bewerbungsfrist: 15.07 - 15.08
(2 Wochen bzw. in der vorlesungsfreien Zeit 3 Wochen) 06. - 27.08.2019

Aufgabengebiet:
☐ Mitarbeit im Fachgebiet Fachdidaktik und Lehr-/Lernforschung Chemie
☐ Literaturrecherche und -beschaffung
☐ Vorbereitung und Mitwirkung bei Lehrveranstaltungen
☐ Erstellung von Lehrmaterialien
☐ Unterstützung bei der Evaluation der Lehre
☐ Beratung von Studierenden
☐ Durchführung von Tutorien auf dem Gebiet
   Im Umfang von durchschnittlich ..... Lehrveranstaltungsstunden
☐

Anforderungen:
☐ Studium einer für das Aufgabengebiet einschlägigen Fachrichtung Chemie
☐ Für die Durchführung von Tutorien ist der Nachweis des Erwerbs der
   Kompetenzen bzw. Qualifikationen (bspw. Modulabschlussprüfung)
   Voraussetzung, die im Rahmen des Tutoriums vermittelt werden sollen.
☐ Kenntnisse der gängigen Office-Programme
☐ vorausgesetzt wird ··············································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································
