09 November 2023, 09:30-17:00

Workshop

Dr. Neela Enke
Conflict management

Content:
Nobody wants to have conflicts: they are stressful and should be avoided. But conflict competence is a key aspect of professionalism and success. This workshop challenges popular views of conflict and presents a positive understanding of conflictive processes. It brings PhD candidates in contact with their already existing resources for conflict solving and shows how to use these actively to influence difficult situations positively. Furthermore, it is discussed how to address conflicts in a constructive manner and how to communicate and act professional when in conflict.

Content in brief:
• Conflict analysis, handling and consequences
• Discovery and professional use of individual solution resources
• Professional communication in difficult situations
• Dealing with hierarchy and dependence

Methods:
Trainer input, guided self-reflection, group work and discussion

Workshop language: English

Venue: Humboldt-Kabinett, Department of Computer Science, Rudower Chaussee 25, 12489 Berlin, 1st floor (between Haus 3+4)

The event is aimed at PhD students of the Faculty of Mathematics and Natural Sciences at HU Berlin, max. 12 participants.

Please register until 2 November:
