

**12.12.2024, 9:30-17:00**

Dr. Chripa Schneller  
**Workshop „Diversity“**

**Venue:** Humboldt-Kabinett, Rudower Chaussee 25, 12489 Berlin, 1<sup>st</sup> floor

Think for a moment about what `diversity´ means to you. Is it working in an international environment? Is it more of a fact than a goal? And is it about being open-minded?

All of the above are valid – and yet, `diversity´ is more. It is about how you communicate and resolve conflict in diverse teams. It is about creating an inclusive and equitable academic community, free of or at least responsive to discrimination. And it is the basis for empowering everyone – including yourself – to unfold their full potential.

In this workshop you can systematically learn the principles of diversity and diversity-competent leadership. As early career researchers, a solid understanding of discrimination and how to avoid/proactively counter it is crucial. By means of numerous case examples, you will learn to spot the common pitfalls and get fit for your academic future.

The event is aimed at PhD candidates and postdocs, max. 12 participants.
