Lab Tour and Career Talk with Dr. Zsuzsanna Heiner, SALSA

During this tour, Dr. Heiner gives a presentation on her current research at the SALSA Photonics Lab. She provides insights into her laboratory routine and her career path until today. And, of course, you gain some general information about the SALSA graduate school. The tour is aimed at doctoral students, postdocs and masters students.

Venue: SALSA Laborgebäude, Albert-Einstein-Str. 11 (Innenhof von AES 9), 12489 Berlin

Dr. Zsuzsanna Heiner is Head of SALSA Photonics Lab. She holds since 2015 the *Julia Lermontova Fellowship* in optical microspectroscopy, DFG GSC 1013 (Excellence Initiative). In 2013, she defended her thesis in Physics at the University of Szeged for her project "Study of bacteriorhodopsin and coenzymes using femtosecond time-resolved spectroscopy"

SALSA, the Graduate *School of Analytical Sciences Adlershof*, was established at Humboldt-Universität zu Berlin in 2012 in the framework of the German Excellence Initiative. The program offers a structured, three-year period of multidisciplinary research combined with an integrated curriculum in Analytical Sciences.
