

Declaration of independence

I hereby declare that I have written this paper independently and have not used any sources or aids other than those specified, that all statements taken verbatim or in spirit from other writings have been identified and that the paper has not been used in the same or a similar form for other examinations and has not been submitted to any other examination authority.

I have clearly labelled all passages that are taken from other works in terms of wording or meaning (including translations) as borrowed material, stating the exact source (including the World Wide Web and other electronic data collections). This also applies to attached drawings, pictorial representations, sketches and the like.

In addition, I confirm that when using IT/AI-supported tools, I have listed these tools in full in the "Overview of tools used" below with their product name and version number, my source of supply (e.g. URL) and details of use, and that I have completed the checklist truthfully. Excluded from this are those IT/AI-supported writing tools that were classified by my responsible examination office as not subject to notification by the time I submitted my paper ("whitelist"). In the preparation of this paper, I have worked independently throughout and have controlled the use of IT/AI-supported writing tools.

I am aware that in the event of violations of these principles, a procedure for attempted cheating or deception will be initiated in accordance with the subject-specific examination regulations and/or the interdisciplinary statutes regulating admission, study and examination at Humboldt-Universität zu Berlin (ZSP-HU).

Overview of tools used

Completion note: Please indicate which of the following programmes you used for your paper. For each programme, please enter how you used it. To do this, enter the respective number in the "Use" column. Several digits can be entered for each programme. If you have used a programme that is not listed in the table, please add this by specifying the type of use.

Utilisation:

- (0) Not used
- (1) Generation of ideas/brainstorming
- (2) Literature research
- (3) Translation of texts
- (4) Summarising sources
- (5) Explaining content in a different way (e.g. constructs, methodological approaches, analyses)
- (6) Creating text sections that serve as a template
- (7) Revising your own text elements (please state the page number of the paper)
- (8) Analysing data (e.g. writing code, defining suitable analysis methods, creating figures)
- (9) Spell check
- (10) Visualisations for illustrative or decorative purposes

Checklist: IT-/KI-supported writing tools:

Programme (Please also indicate any other programmes you have used to write your paper).	If relevant: sections concerned (Please indicate page numbers if not applicable to the entire document).	Utilisation (Please enter number - see above)
ChatGPT		
Elicit.org

GitHub Copilot		
Perplexity AI		
ChatPDF		
DeepL		
BingChat		
Gamma		

Humanata AI		
Keenious		
Monica		

If you are unsure whether a programme falls under "artificial intelligence", please enter it. You will not suffer any disadvantages by naming the programme. If you have used other programmes, you can enter them in the empty lines.

Whitelist

The following programmes do not have to be listed or evaluated. These programmes can be used without further information:

- ✓ Microsoft Office, LaTeX, OpenOffice, iWork
- ✓ Google Scholar
- ✓ Databases of the university library
- ✓ Reference management programmes (Zotero, Endnote, Mendeley, etc.)

Further explanations if necessary:
