

Regulations for in-presence defence presentations

Stand: 26.10.21

An in-presence defence can only take place in compliance with all current measures against the coronavirus of the Infection Protection Ordinance of the State of Berlin, the current regulations of the HU Berlin and the hygiene plan of the HU contained therein.

All members of the doctoral committee as well as the doctoral candidate declare in advance of the meeting, to the chairperson, their agreement to conduct in presence. In case of disagreement, please consider the possibility to conduct the defence as hybrid or digital defence.

A separate application is no longer required. However, please inform the doctoral office if you are planning an in-presence defence.

All participants are obliged to comply with the 3G rules. The compliance check is carried out by the promotion committee.

In addition, the usual distance rules apply with an obligation to wear a FFP2 mask or a surgical mask in traffic areas if the minimum distance cannot be kept.

Presenters may wear a medical mask if the room is technically ventilated and the minimum distance is maintained. The doctoral committee is responsible for compliance with all rules.

It is no longer necessary to book separate, certified rooms. However, a maximum of the available seats may be occupied per room.
