

28 November 2024, 14:00-16:00

**Workshop series „Writing a PhD in science“  
#2**

Anja Herbig (HU CMS)

**Research data management (for natural scientists)**

Research data management is an integral part of good scientific practice. It supports later data publication, which is expected by more and more funding organizations and publishers.

This workshop informs about data management planning, data administration and services for data storage and file organization at Humboldt-Universität zu Berlin.

**Workshop language:** English

**[Please register until 22 November.](#)**

Zoom link shared after registration.
